

MEGA OVEN

PURPOSE

Thermal Aging and elevated temperature accident testing

ADVANTAGE

- Ability to age large items or assemblies, without need to disassemble
- Minimizes and reduces the handling of components for baseline testing
- Risk mitigation during qualification testing

ARC FLASH SAFE

Low and medium voltage arc flash safe

STATISTICS

Height: 12 ft
Depth: 9 ft
Width: 11 ft
Max Temp: 300 F
Max Run: >1 year
